Water · Fixed · ruled by Pluto. Scorpio is the sign of transformation, depth, and intensity. Those born under this sign possess powerful emotional and psychic abilities.

The window's constants — placements that hold whichever day the birth lands: Mercury in Scorpio · Venus in Libra · Jupiter in Leo · Saturn in Aries · Uranus in Gemini · Neptune in Aries · Pluto in Aquarius.

Moving during the window: Mars (Leo ' Virgo). The Moon changes sign every couple of days, so a window can't pin it — the birth date will.

READING THIS REPORT

Every number here was computed from the names and dates you gave us, using the Pythagorean reduction system, with the calculations shown. A high score is a note of resonance, not a promise; a low score is contrast, not a warning. No name in this report can harm or help your child — the love and the life you build around the name do that. Use what resonates, discard what doesn't, and treat all of it as reflection rather than prediction. Nothing in this report is medical, financial, legal, or parenting advice.
